

Are your water bills drowning you?

Our water bills have skyrocketed since last July! The reason for this drastic increase is a completely arbitrary billing scheme which is punishing our residents and looting our paychecks. This scheme charges people monthly penalties of up to 700%. People with families and trees are punished the most. Do we want our yards to consist of just sand and rocks?

This battle can't be won alone. We must bring the full power of our city to stop the water districts from dictating our quality of life!

I will lead the fight to reduce water bills for all Laguna Hills residents

Andrew Blount for Laguna Hills City Council
